CLOSE FLIGHT PLAN

SEAPLANE OPERATIONS

SEAPLANE BASES OPEN TO PUBLIC

1. Boulder Junction
2. Green Bay — Foxair
3. Janesville — Archde's
4. LaCrosse — Schaefer
5. LaPointe — Madeline Island Marina
6. Lac du Flambeau — Franks
7. Ladysmith — Lake Flambeau — Rusk County
8. Lake Delton — Medos Lake Delton
9. Lake Geneva — Edgewood Air
10. Lake Nebagamon — Northern Lights Marina
11. Madison — Mohs
12. Shawano Municipal
13. Stoughton — Quams Marina
14. Three Lakes

*No Services

SPECIAL NOTICE: Seaplane Restrictions and Warning—
Seaplanes prohibited from using the following lakes: Devils Lake, Eagle Lake, all waters in Governor Dodge State Park and Willow River State Park, Crystal Lake, Lake of the Dalles, Maunthe Lake, Lake Seven, Ottawa, Interlakes Lake in Pattison State Park and Yellowfish Lake in Shawano County. Seaplane pilots wanted to ctc local law enforcement agencies adjoining the waters before attempting use of any of the surface waters in Wisconsin. (10/74)

Wisconsin's airport system is a vital element in the state's transportation system, providing fast, economical and reasonably priced service. This link must remain strong because the efficiency of Wisconsin's entire transportation system depends on the balanced growth of each of its major elements.

Wisconsin recognizes the key role of air service in helping to move people and products. We must maintain an air transportation system that effectively and efficiently serves the needs of Wisconsin citizens.

I urge everyone to use Wisconsin's skies safely and wisely.

Sincerely,
Martin J. Schreiber
Martin J. Schreiber
Governor

LIGHT ACTIVATION CODES

All public airports listed below have at least one runway lighted at some intensity (original condition) during the hours of darkness. If lights are off during daylight hours, the radio control procedures listed below will activate lighting systems except as follows: if an airport is attended, a verbal radio request to the airport may be necessary to obtain lighting system activation.

The first step in the procedure listed for each airport (except Oshkosh) **MUST** be accomplished in order to activate the lighting system. After the first step is accomplished, the subsequent steps may be accomplished in any order desired. Return to the conditions of the first step may be attained at any time by accomplishing the first step.

All systems return to their original condition **15 minutes** after the last command.

CRUISING ALTITUDES

SIGNAL LIGHT PROCEDURES

SIGNAL	ON GROUND	IN FLIGHT
STEADY GREEN	Cleared for take-off	Cleared to land
FLASHING GREEN	Cleared to taxi	Return for landing (to be followed by steady green at proper time)
STEADY RED	Stop	Give way to other aircraft and continue circling
FLASHING RED	Taxi clear of landing area (unless in use)	Airport unsafe — Do not land
FLASHING WHITE	Return to starting point on airport	General warning — Exercise extreme caution
ALTERNATING RED & GREEN		
TO ACKNOWLEDGE TOWER SIGNALS		
DAY - Rock wings - Move controls		
NIGHT - Blink navigation or landing lights		

AIR MILEAGE CHART

Numbers indicate nautical miles between Airports

The department of transportation's division of aeronautics has been cited by the federal aviation administration for compiling an innovative and exemplary record in aviation safety. The award recognizes Wisconsin's skies as among the safest in the world.

The division of aeronautics, as well as the many other groups and individuals who contributed to that record, should be proud of the accomplishment.

One of the goals of my administration is to make all Wisconsin's travelers, be they air or land or sea, among the safest in the world. Reaching that goal depends on the cooperation of all — including you who use this chart.

May you use Wisconsin's opportunities and resources wisely and safely.

Dale Cattanch
