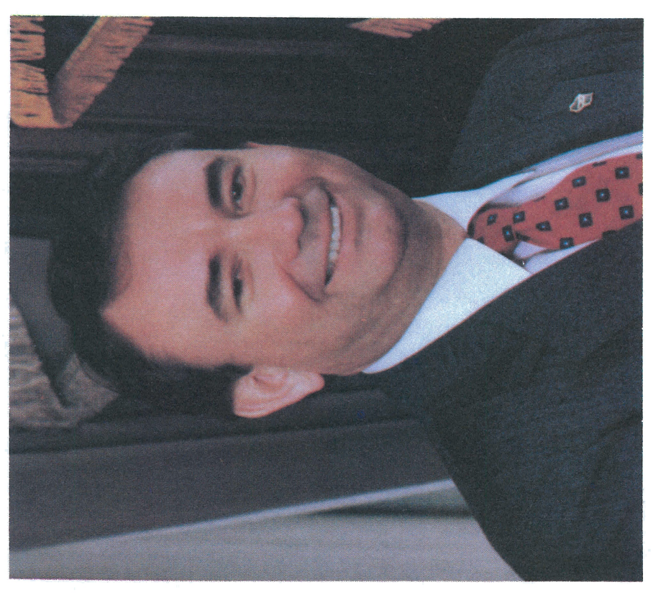
Park Falls

Phillips



As you wing your way across Wisconsin's fair skies, you have an unparalleled vantage point from which to view our state's splendid and picturesque landscape, with its rolling farmland, towering bluffs, clear lakes and rivers and busy communities.

We are proud of the beauty of our state, just as we are of the long-term commitment we have made to excellence in bringing you the safest, most efficient, and convenient airports possible.

We have accepted the challenge of keeping Wisconsin competitive. And, we are working diligently with communities across the state to improve our airports. That means upgrading the overall quality of service they provide, including fire protection and safety, to accommodate business and industry, agribusiness, those in the aero-medical field and flyers seeking to enjoy the wide variety of our natural, historical or tourist treasures.

During the last five years, air travel in Wisconsin soared, with a nearly 24% increase in passenger boardings. During 1990 alone, some 3.5 million passengers boarded scheduled air carrier flights at 11 commercial service airports.

Despite this increase in activity, Wisconsin airports remain uncongested -- welcome aviation oases of safety, efficiency and friendliness.

Whatever your reasons are for flying in our beautiful state, you are among friends committed to your safety and pleasure. We welcome your wings over Wisconsin!

Governor Tommy G. Thompson

FLIGHT PLAN SEQUENCE

1. Type (IFR-VFR)
2. Aircraft Ident. No.
3. Aircraft Type/Equipment *
4. Estimated True Airspeed-Knots.
5. Point of Departure
6. Departure Time (UTC) Act., or Est.
7. Initial Cruising Altitude
8. Route of Flight
9. Destination
10. Estimated Time Enroute
11. Remarks
12. Fuel on Board (Hrs.)
13. Alternate Airport(s)
14. Pilot's Name and Address
15. No. of Persons Aboard
16. Color of Aircraft

* EQUIPMENT SUFFIX

/X - No transponder
/T - Transponder with no altitude encoding capability
/U - Transponder with altitude encoding capability
/D - DME, no transponder
/B - DME, transponder with no altitude encoding capability
/A - DME, transponder with altitude encoding capability
/M - TACAN-only, no transponder
/N - TACAN-only, transponder with no altitude encoding capability
/P - TACAN-only, transponder with altitude encoding capability
/C - RNAV, transponder with no altitude encoding capability
/R - RNAV, transponder with altitude encoding capability
/W - RNAV, no transponder

TRANSPONDER OPERATION

Transponders are required to be on, and to be squawking altitude, if Mode C equipped, while in all controlled airspace. Mode C equipment is required for flights above 10,000 feet MSL, within 30 NM of a TCA primary airport, and when in or above ARSA airspace.

OPERATION	CODE
VFR	1200 (unless otherwise instructed)
Hijack	7500
Radio Failure	7600 (See Part 1 of AIM)
Emergency	7700

SIGNAL LIGHT PROCEDURES

SIGNAL	ON GROUND	IN-FLIGHT
STEADY GREEN	Cleared for takeoff	Cleared to land
FLASHING GREEN	Cleared to taxi	Return for landing (to be followed by steady green at proper time)
STEADY RED	Stop	Give way to other aircraft and continue circling
FLASHING RED	Taxi clear of landing area (runway in use)	Airport unsafe - do not land
FLASHING WHITE	Return to starting point on airport	
ALTERNATING RED AND GREEN		General Warning - Exercise extreme caution

TO ACKNOWLEDGE TOWER SIGNALS
DAY - Rock wings - (Move controls)
NIGHT - Blink navigation or landing lights

RESTRICTED AREAS

	Location	Altitude	Time	Information
R--6901	Fort McCoy	To 20,000	Continuous	* Area FSS Fort McCoy Tower 124.6
R--6903	Sheboygan	To FL 450	Continuous sunrise to sunset	*Area FSS Volk Field Tower126.2
R--6904A	Volk Field	150 AGL to 17,000	Sunrise to 1900 or by NOTAM	*Area FSS Volk Field Tower 126.2
R--6904B	Volk Field	To 17,000	Sunrise to 1900 or by NOTAM	*Area FSS Volk Field Tower 126.2

R -- Restricted
* -- For Information Only

Unless otherwise noted: Altitudes are MSL and in feet; time is local. No person shall operate an aircraft within a Restricted Area between the designated altitudes during the time of designation unless prior permission has been issued.

SEAPLANE OPERATIONS

Special Notice: Seaplane Restrictions - Seaplane pilots are warned that over 65 known bodies of water in Wisconsin have seaplane prohibitions or restrictions. Before using surface waters in this state, all seaplane pilots are urged to contact local law enforcement agencies that adjoin bodies of water. For further information, contact Wisconsin D.O.T., Aeronautics, P.O. Box 7914, Madison, WI 53707.

Education and Safety	608 266-7347

You're on your way now, confident in Wisconsin's safe and efficient airports and friendly skies.

With the Wisconsin Department of Transportation's newly designed 1991 Aeronautical Chart in hand, you can relax and soar across our beautiful state with the knowledge that beneath your wings is one of America's most streamlined, efficient and uncrowded airport systems.

The DOT is committed through its Six-Year Airport Improvement Plan to improving and enhancing that system. We are investing a record $200 million to upgrade 73 of our 144 public-use airports.

You are part of a transportation system that is a critical element in Wisconsin's economic health and vitality. Here are some of the improvements you will find new in aviation in our state during the next two years:

- An all new paved runway at Viroqua.
- Six to 10 new WeatherMation units installed statewide, with the possibility of color radar, color satellite pictures and plain language text.
- The first fully automated, state certified weather observation system at Price County Airport, Phillips (one of the airports featured on this year's cover).
- Construction of two new state and locally funded airport control towers at Central Wisconsin Airport and Kenosha Municipal Airport.

Whether your flight plan is geared for business or pleasure, we are sure this chart will help you to safely and happily reach your destination, whether on land or at one of Wisconsin's 27 seaplane bases.

Ronald R. Fiedler, Secretary
Wisconsin Department of Transportation

Produced and distributed by the Wisconsin Department of Transportation, Bureau of Aeronautics, in the interest of promoting air navigation safety with data current as of April 1, 1991.
