CAUTION: LISTED RUNWAY LENGTHS MAY NOT BE USEABLE LENGTHS

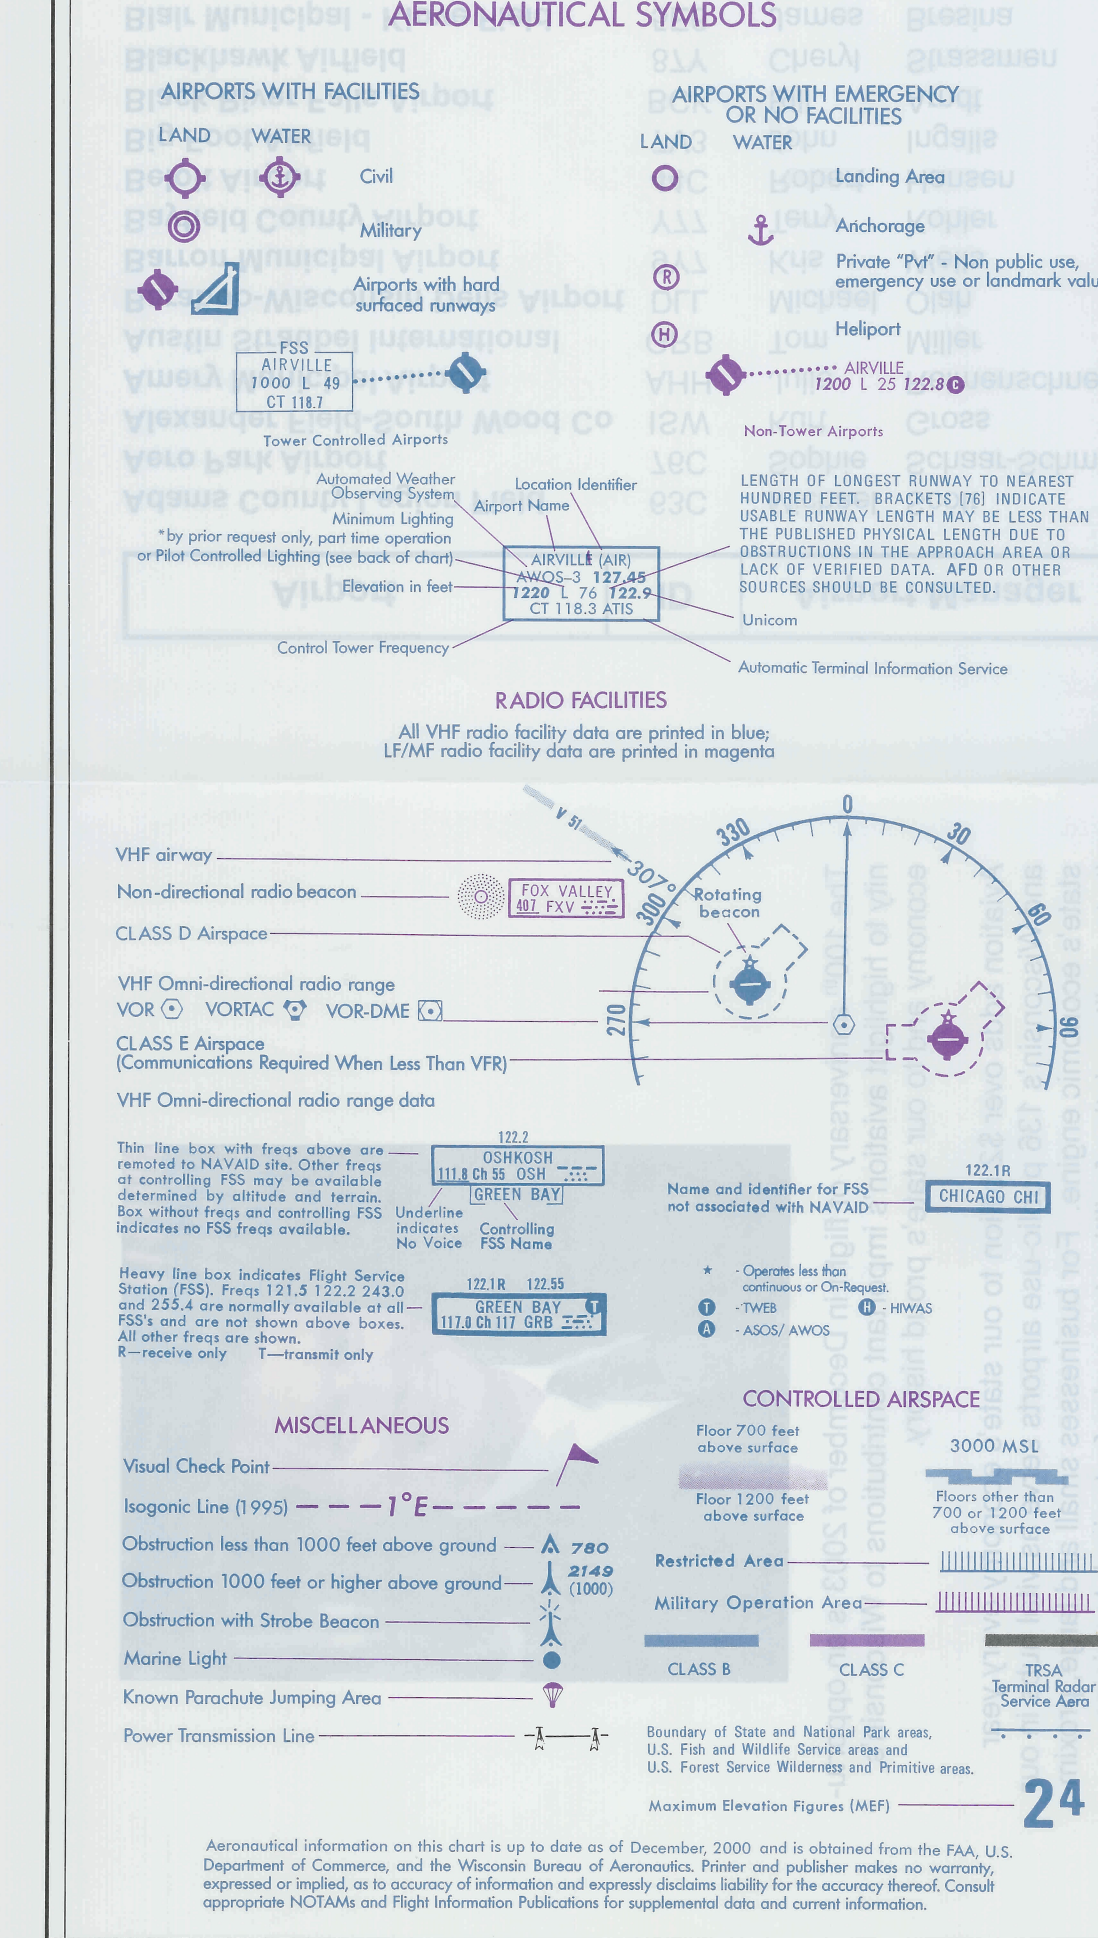

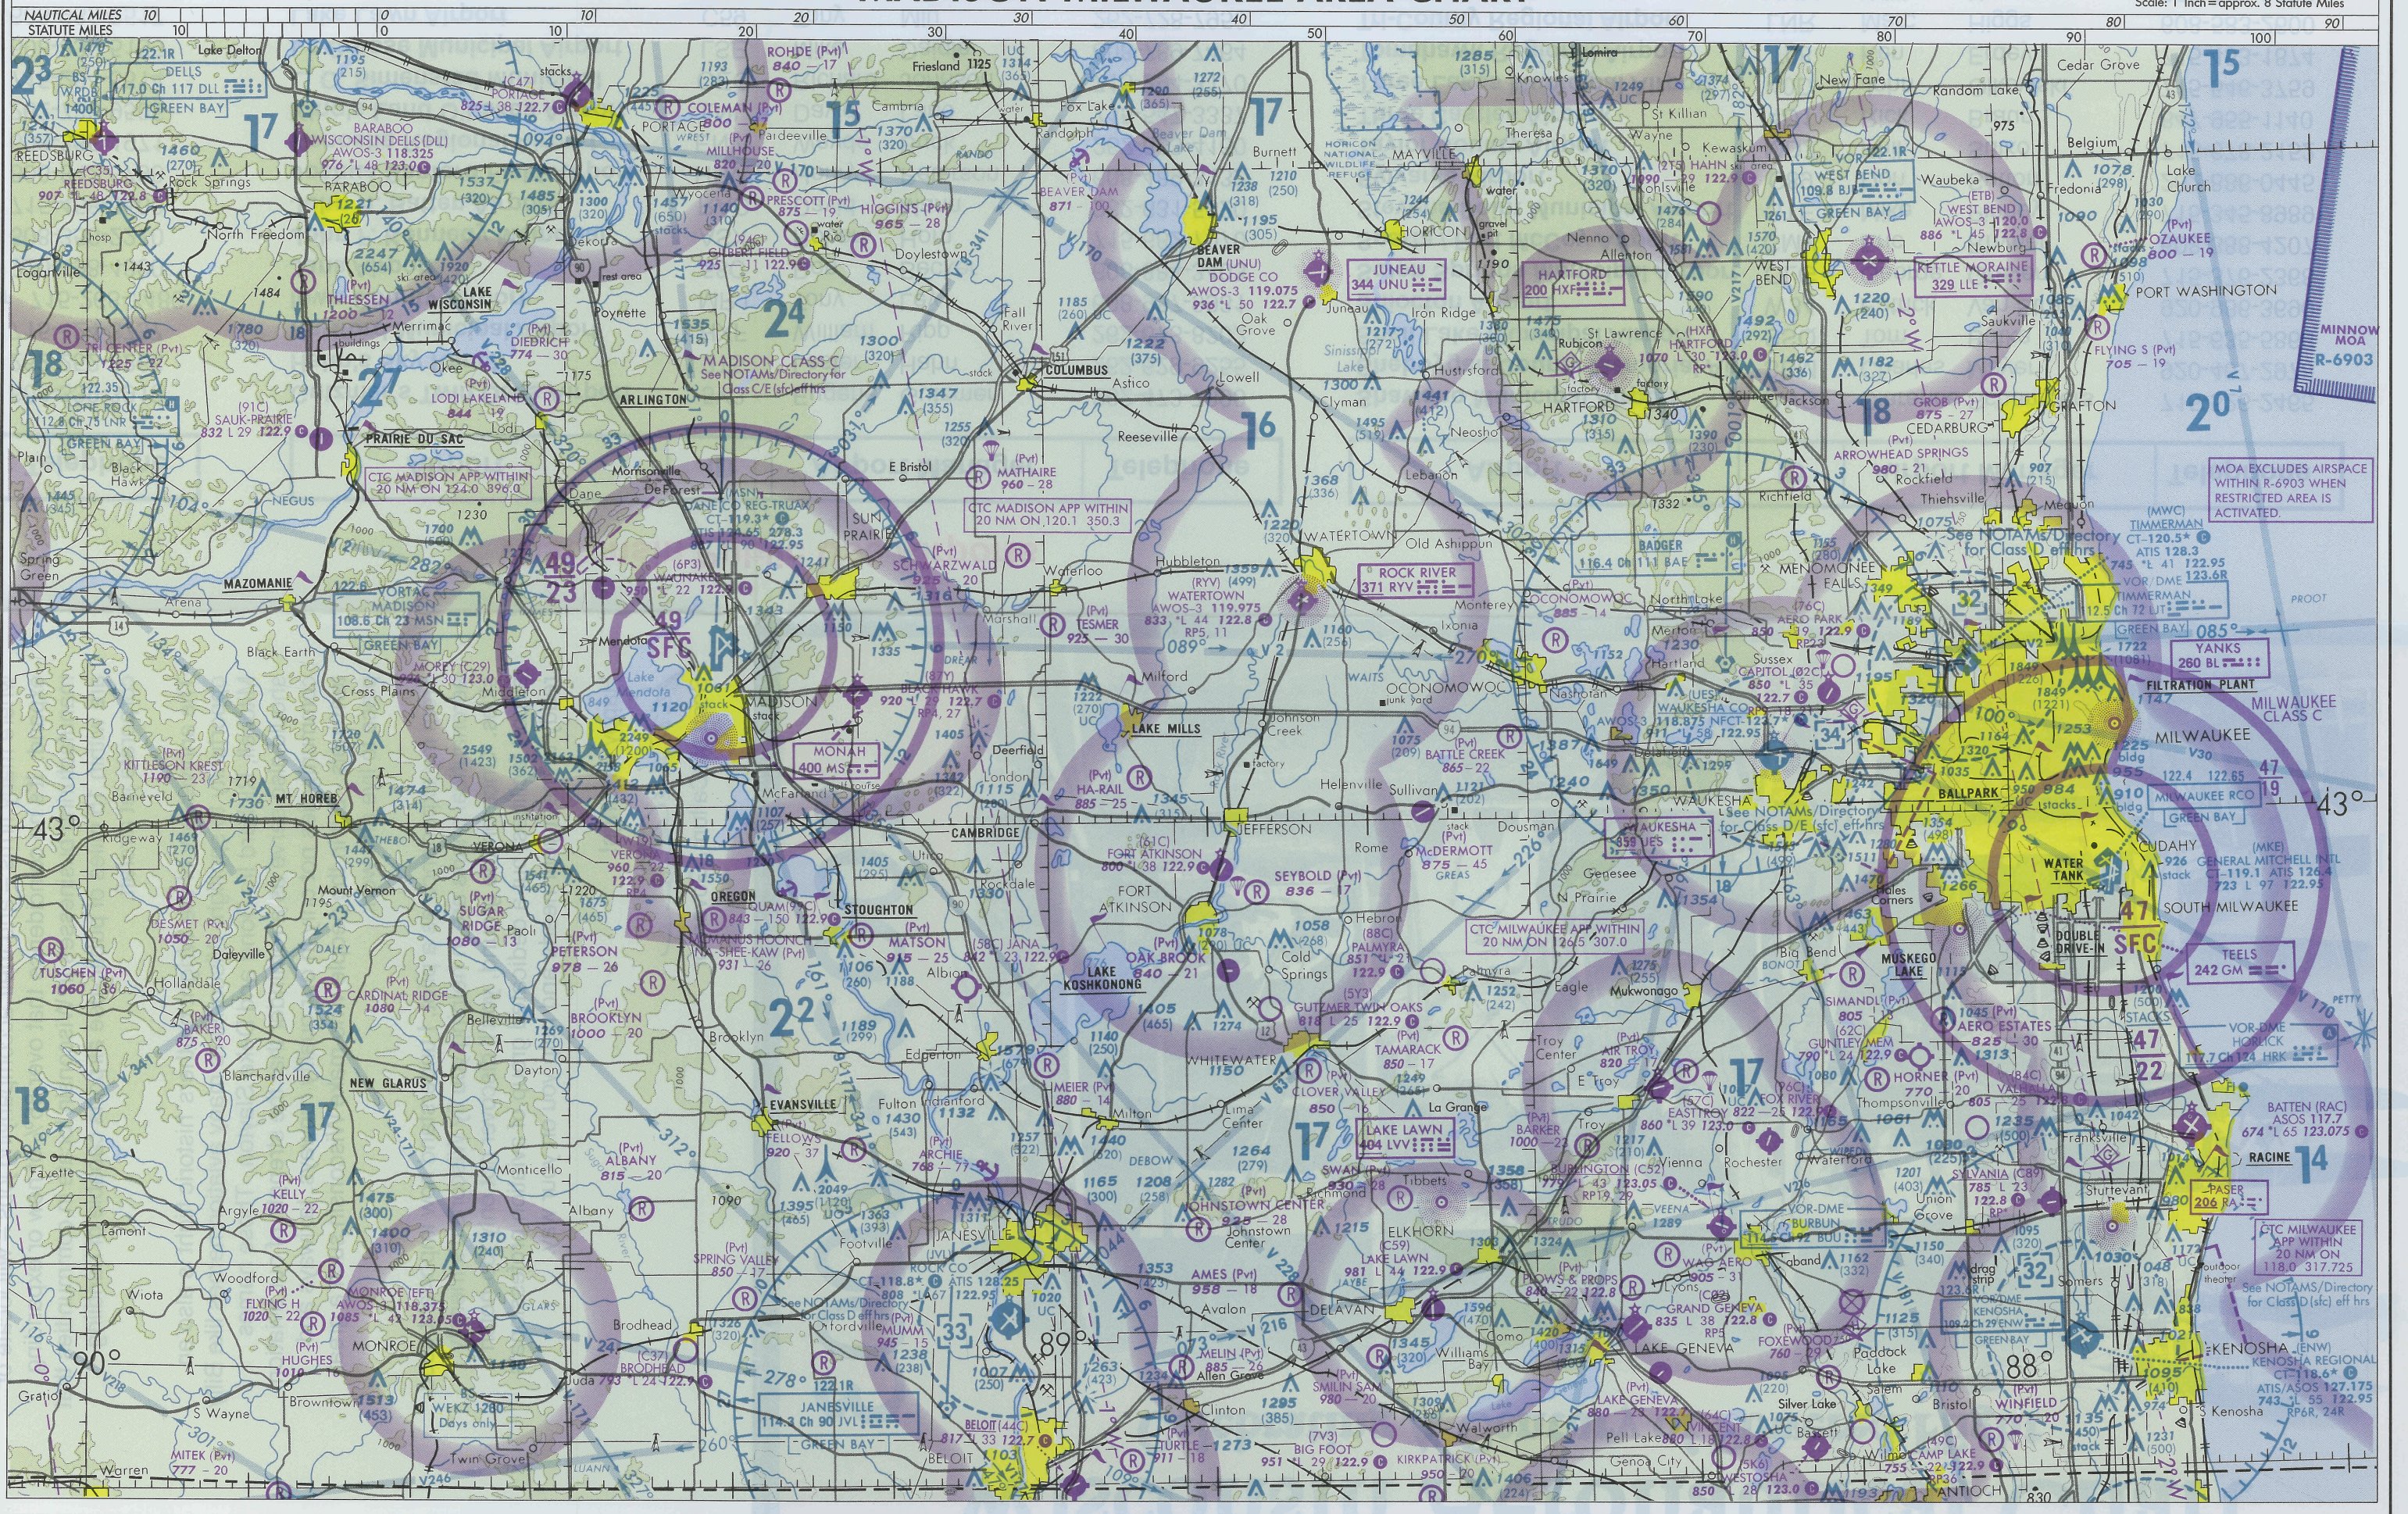

CAUTION: LISTED RUNWAY LENGTHS MAY NOT BE USEABLE LENGTHS

GREEN BAY AREA CHART

SEE AREA CHART BELOW

MADISON-MILWAUKEE AREA CHART

CAUTION: LISTED RUNWAY LENGTHS MAY NOT BE USEABLE LENGTHS

The anniversary of the Wright brothers' historic flight is also an opportunity to spotlight Wisconsin's many aviation heroes like Billy Mitchell, Richard Ira Bong and Deke Slayton. Those names should also serve as a reminder that the strength of our aviation community lies not only in our quality runways, taxiways and terminals - but in the people who make Wisconsin such a great place to live and work.

From my experience as a pilot, I understand how important good aeronautical charts are in helping you fly Wisconsin's friendly skies. Once on the ground, you'll discover not only top-notch airport facilities, but a dedicated group of aviation professionals ready to meet your needs and help you on your way.

Happy landings!

Scott McCallum, Governor

2002 - 2003

NOTE: Altitudes are MSL and in feet unless otherwise indicated. Time shown is local. No Person shall operate an aircraft within a Restricted Area between the designated start and end times of time of designation unless prior permission has been issued.

The following Wisconsin airports have **Ground Communications Outlets** for contacting ATC via telephone from inside the cockpit:

1. Tune radio to 121.72 MHz
2. Key microphone six (6) times- slowly
3. When GRB AFSS answers, speak as you would for any routine radio communication.
4. REMEMBER - Key the microphone at least once per minute to keep the connection open.

- ◆ GCO is for GROUND USE ONLY
- ◆ Airborne use causes interference and is PROHIBITED

Wisconsin's airports are a key link in our state's comprehensive transportation network and play an increasingly important role in economic development. The Wisconsin Department of Transportation (WisDOT) is committed to the health of our state's aviation industry and in 2002, will oversee nearly \$76 million in federal, state and local investments on some 48 airport improvement projects throughout the state.

Along with improving infrastructure, WisDOT is an active partner in efforts that promote transportation safety. The events of September 11th have had an especially profound impact on aviation. We're working closely with both commercial and general aviation officials on strategies to enhance security and communication. Despite the tragedy of those events, they've also served as a catalyst to strengthen our collective resolve to thrive in the days ahead.

Our Bureau of Aeronautics and its team of dedicated aviation professionals stand ready to assist you in meeting tomorrow's needs and challenges. Please let us know how we can serve you better. And whether you're flying for business or pleasure, I hope you'll take the time visit Wisconsin's beautiful communities and friendly people.

Have a safe and enjoyable trip.

Tom Carlsen, Acting Secretary
Wisconsin Department of Transportation

time visit Wisconsin's beautiful communities and friendly people.

A diagram showing a 2x2 grid. Inside the top-left cell of the 2x2 grid is a 1x1 grid. The 1x1 grid contains a box labeled '1'. The 2x2 grid has three other boxes labeled '2', '3', and '4' in the top-right, middle-right, and bottom-right positions respectively. The top-left position of the 2x2 grid is empty.
